

TWO SEINERS ONLY ARRIVALS

SMALL AMOUNT OF FRESH FISH
LANDED HERE SINCE
YESTERDAY.

Two seiners with small fares of fresh mackerel were the only craft to reach port with fish since yesterday. Sch. Albert D. Willard arrived during the night with a fare of blinks which were sold to John Chianciola, and the Capt Drum had 2000 pounds of medium sized fish which sold to the Producers' Fish Company.

Gloucester Arrivals and Receipts.

The arrivals and fares in detail:

SEVERAL CRAFT SHIFTING OVER

Sch. Squanto is shifting from halibuting to haddock and will sail under command of Capt. Val O'Neil. Sch. Arthur D. Story has had a new 150 horsepower oil engine installed and is being made ready for haddocking under command of Capt. Jack Grant.

Sch. Doris F. Amero, Capt. Nels Amero, has given up swordfishing and is now fitting for flounder dragging.

N. S. Catch Off.

The Nova Scotia fish catch for July shows a considerable decrease both in quantity of all fish landed and the landed value, as compared with the corresponding month of 1929. All the principal varieties with the exception of the salmon fishery register decreased landings. The decrease in the total catch as compared with the catch for July last year amounts to 6,116,900 pounds and in the landed value \$87,471.

The total quantity of all fish landed during the month was 24,950,900 pounds, having a landed value of \$439,187, as compared with a catch of 31,067,800 pounds with a landed value of \$528,658 for the same period last year.

The chief varieties landed were cod, haddock, halibut, hake and cusk, herring, pollock, salmon, lobsters and mackerel.

The salmon fishery was more fortunate and registers an increase in the catch of 127,400 pounds and in the landed value of \$2061. The July catch for 1930 was 455,400 pounds, having a landed value of \$54,422 as compared with a catch for the same month last year of 328,000 pounds valued at \$52,361.

EASTERLY DROVE SEINERS BACK

Several of the seining fleet fishing off of the shore, came back to port this morning after having ventured outside earlier. Heavy weather outside made fishing conditions undesirable, so the fleet will lay in port until the easterly abates.

Captured Turtle.

Capt. George Goodwin, skipper of sch. Isabelle Parker, at the Boston Fish Pier, yesterday, from South Channel, had on board a 50-pound turtle, of the loggerhead species, taken a few days ago by one of the crew who preferred to remain anonymous. The turtle, which by the way is the fourth landed this week by fishermen, was swimming leisurely by the doryman, and the latter paused long enough to haul the "critter" out of the water.

Mr. Turtle will be presented to the city of Boston by Capt. Goodwin, and its new address will be at the Aquarium at City Point, Boston.

Speared Dolphin.

A three-foot dolphin, far from its native habitat, was speared on Browne's bank, from the deck of the sch. Natalie Hammond, which came in at Boston yesterday with halibut. Usually dolphins are rarely seen north of Hatteras, but this particular one had wandered far to the northward, only to fall a victim to a harpoon sent by one of the Hammond's crew. It was brought in iced, and later sold as a curiosity.

SWORDERS SHIFTING

OVER TO DRAGGING

Schs. Vasco DaGama and Mystic are changing from swordfishing to dragging.

Sch. Aeolus is shifting over from swordfishing to handlining, and sch. A. Piatt Andrew will shift from swordfishing to trawling. Sch. Adventure, Capt. Jeff Thomas, hauled out of halibuting today, and is shifting to winter haddocking.

LOCAL DEALERS WELL SUPPLIED

**PLENTY OF FRESH FISH IN PORT
THIS MORNING—MACKEREL
RECEIPTS LIGHT.**

Local dealers were pretty well supplied with fresh fish this morning, there being no less than a half dozen druggers with haddock to fillet and three halibuters to refit. Mackerel receipts, however, were light, two vessels bringing between them, 5000 pounds.

At the General Seafoods this forenoon, five druggers with a total catch of 275,000 pounds were waiting to unload. Sch. Elizabeth and Ruth had a 30,000 pound fare at the Gorton Pew filleting plant, the same concern also getting some salt and fresh fish from the halibuter Grand Marshal. The halibuters Natalie Hammond and Adventure each took out a small amount of fish at Davis Brothers and Frank E. Smith's.

Oysters Are Abundant.

(Special to the Times).

Washington, D. C., August 21.—The unusually early and abundant set of oysters which has occurred along the coast of Connecticut this season exceeds all records for the past 15 years, the bureau of fisheries declares. The record crop is attributed to the abnormally high air and water temperatures, abundant rainfall, and the very apparent improvement in the quality of the water as a result of a decrease in trade-waste pollution.

In Milford Harbor the setting of oyster conferences have been held with a large number of the oyster-growing concerns and advance information and predictions given out regarding the time and intensity of setting. The oystermen have taken advantage of the favorable circumstances and have made the earliest and greatest planting of shells and gravel in recent years, and in addition have put out large numbers of partition collectors.

The work on starfish control carried out at Cold Spring Harbor, Long Island, has been speeded up in view of the fact that heavy sets of oysters in Connecticut waters are frequently accompanied by a heavy crop of young starfish, which soon devour them.

NEW CRAFT OUT TO ADJUST COMPASS

The new sch. Magellan, launched recently at Essex, was taken out in the harbor for compass adjustment this morning, by her skipper, Capt. Joseph Rose, who later gave her a short trial trip outside.
